Eligible purchases of five or more permanent blinds receive the actual measurement charge back once, up to C$90.00, plus one suitable temporary panel per blind, up to ten, with agreed measurement-visit fitting or a suitable product-only kit. Confirm suitability and availability. Reconcile prior receipts at the actual amount paid; never round historical payments or credits upward.

Full cash/debit payment qualifies for a further 3% discount after eligible credits and authorized product discounts; mixed payments qualify only on the cash/debit portion. No added card fee. What coverage includes

Eligible High Priority products have five-year manufacturer parts coverage under supplier and component terms. Standard coverage requires confirmation. Optional EZEBLINDS dealer plans are separate: covered defects and normal-use mechanical failures include necessary calls, standard Calgary travel, removal, labour, parts handling, shipping and reinstallation. Repair where suitable; otherwise a comparable replacement for the failed blind and installation. No deductible or arbitrary one-call limit. Dealer obligations do not depend on manufacturer recovery.

Exclusions

Excludes cosmetic aging/fading without a defect, routine cleaning, lost remotes, consumable batteries, misuse, pet/impact damage, flood/fire, unauthorized alterations, relocation, network changes and elective upgrades. No automatic replacement of unaffected matching blinds.

Eligibility and written terms

Identify covered units, accessories and the accepted address. EZEBLINDS measurement and installation, or a separately quoted inspection and acceptance, are required. Choose a two- or five-year term from completed installation; terms do not stack or restart after service. Fewer than five blinds, specialty/oversized, commercial or out-of-area work needs an individual quote. Ordinary remedies and correction of EZEBLINDS errors do not require a plan.
